

兔抗 THPO 多克隆抗体

- 中文名称：兔抗 THPO 多克隆抗体
- 英文名称：Anti-THPO rabbit polyclonal antibody
- 别名：ML; TPO; MGDF; MKCSF; MPLLG; THCYT1
- 相关类别：一抗
- 储存：冷冻（-20℃）避光
- 宿主：Rabbit
- 抗原：THPO
- 反应种属：Human, Mouse, Rat
- 标记物：Unconjugate
- 克隆类型：rabbit polyclonal

技术规格

Background:	Megakaryocytopoiesis is the cellular development process that leads to platelet production. The protein encoded by this gene is a humoral growth factor that is necessary for megakaryocyte proliferation and maturation, as well as for thrombopoiesis. This protein is the ligand for MLP/C_MPL, the product of myeloproliferative leukemia virus oncogene. Mutations in this gene are the cause of thrombocythemia 1. Alternate splicing results in multiple transcript variants of this gene.
Applications:	WB

Name of antibody:	THPO
Immunogen:	Fusion protein of human THPO
Full name:	Thrombopoietin
Synonyms :	ML; TPO; MGDF; MKCSF; MPLLG; THCYT1
SwissProt:	P40225
WB Predicted band size:	38 kDa
WB Positive control:	293 cells
WB Recommended dilution:	500-2000
